Sir:

Pursuant to 37 C.F.R. §§ 1.56 and 1.97(b), applicants bring to the attention of the Examiner the document listed on the attached Form PTO 1449 and respectfully request that the listed document be considered by the Examiner and made of record in the above-captioned application. The documents listed on the attached form were cited in a May 5, 2008 Official Communication from the European Patent Office prepared in connection with examination of a related application. The documents are being submitted within three-months from the date of their citation; thus, Applicants believe that no fee is due in connection with the filing of this Supplemental Information Disclosure Statement.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that the listed document is material or constitutes "prior art." If the Examiner applies the document as prior art against any claim in the application and applicants determine that the cited document does not constitute "prior art" under United States law, applicants reserve the right to present to the Office the relevant facts and law regarding the appropriate status of the document.

Applicants further reserve the right to take appropriate action to establish the patentability of the disclosed invention over the listed document, should the document be applied against the claims of the present application.

Applicants believe no fee is due in connection with this submission. If any additional fee is due, or if any overpayment has been made, the Commissioner is authorized to charge any such fee or credit any overpayment, to our Deposit Account No. 02-4377.

Respectfully submitted,
